

Done:

- Forum Creation / Forum View finished
- MongoDB connection established on local

Planning Stuffs:

- Moved 1 day to account for people's exams (on Tue instead of Mon)

TODO:

- Heman:
 - Create tempData for volunteerSignUp
 - Link things to MongoDB for the map and volunteer sign up
- Johnny:
 - Forum replies and viewing those
 - Figuring out Live Polling forum and best way to do that (currently thinking about updates when forum changes)
- Ishneet:
 - Working on UI/UX components and mobile scaling
- .env file creation on VM
