

Done:

- Ishneet - finished home page, plant info page, resources page, sign in page, and added sign up page (with the react conversions). Also fixed the home page linking
- Johnny - finished forum page and other react conversions, fixed some links serving /node

Planning Stuffs:

- Meeting was pushed back a day

TODO:

- Start API integration so TrefleAPI and Maps
- Begin working on self-made Forum API for requirements
- Some more frontend changes on Forum Page, and try to integrate with API
