

Done:

- Complete OpenStreetMap API integration + placing interactive pins on map with mock data (as a local JSON)
- Frontend

Planning Stuffs:

- Sprint Retrospective will happen on Friday, during class
- Kanban Board will be populated during this scrum meeting

TODO:

- General Stuff:
 - Heman will fix the optimization issue at some point (not a top priority)
 - Johnny is wrapping up the forum page by the presentation
 - Heman is wrapping up the volunteer sign up by the presentation
 - Ishneet will do the last look over of the presentation
 - Heman will finish backend slide
- During Break:
 - Massive Code Restructuring
 - Changing the IA of React components
 - Splitting up CSS into multiple files
 - Some code quality fixes
- After Break:
 - Convert all local data to MongoDB
 - Discuss whose MongoDB we will end up using
