Done:
- Heman merged PR for code quality since there was some bug where Ishneet could not
- We merged in the previous week's scrum logs as we were still writing one up
- Discussing MongoDB
    - Johnny handles Forum side DB
    - Heman handles Map and Volunteer Sign Up side of the DB
    - Potentially separate to two databases because of data storage concerns.

Planning Stuffs:
- None. Meeting at the regular time.

TODO:
- Heman and Johnny will formulate the schemas to write it down
- ishneet will do profile page by monday meeting - previous volunteering and upcoming volunteer events signed up for and tally of all hours that you have volunteered
- Long Term Stuff:
    - Heman will fix the optimization issue at some point (not a top priority)
    - Convert all local data to MongoDB
        - Discuss whose MongoDB we will end up using
        - Discuss whether to use Mongoose / MongoDB notation
